

Ali Abderrahim

Senior Petroleum Geoscientist

20+ Years G&G Technical Operator Experience in the Oil & Gas Industry

Cell: +213 (0) 556 750 223 / Abderali.dz@gmail.com

Career Advancement Objective

*Obtain a technical position with an ambitious growing international E&P operator where I could fully offer my multidisciplinary background in exploration/production projects (onshore and offshore).

Strengths Summary

- *Proven achievements with deep knowledge of structural and sedimentary geology.
- *Designed and carried out structural geological and geophysical fieldwork.
- *Excellent background in seismic interpretation and sequence stratigraphy analysis in petroleum systems.
- *Extensive computer training using industry software (Petrel, Kingdom, Geoframe, Stratworks, Z-Map and Crystal).
- *Experienced in E&P projects management including: data acquisition/prospects generation/drilling/leadership.

Career History & Achievements

-Lead Geologist / Algeria Projects Execution / SONATRACH -Exploration **2014 - May; 31st 2017**

* Algeria Onshore & Offshore: Lead G&G Operations on the Algerian concessions.

-Lead Geologist – Offshore Project Manager / Algeria NOC SONATRACH -Exploration **2011-2014**

*Western Mediterranean Basin / International Offshore Projects:

Project Manager at NUMHYD (Sonatrach's J/V in Tunisia): Lead G&G Operations on the Kaboudia 3D Offshore Permit.

-Senior Geologist / Onshore & Offshore Projects Execution / SONATRACH- Exploration **2003-2011**

*Team leader for the seismic interpretation and prospect generation of the Algerian Offshore Asset.

*Participation and project supervision in cooperation with Statoil on the Egyptian offshore (Blocks 9&10 / Nile Delta).

*Team leader for the seismic interpretation and prospect generation of the Algerian Onshore Asset (Cenozoique & Mesozoique plays).

*Projects planning, generated structural maps using satellite images interpretation and integrated data field.

- Geologist / Algerian Saharian Atlas & Platform / SONATRACH -Exploration **1992-2003**

*Executed tasks in frontier exploration projects (i.e. Cretaceous play) for hydrocarbon resources evaluation.

*Planned a 2D seismic program in collaboration with geophysicists and lead a team to prospects generation.

*Geological field operations during drilling operations (testing, logging, core data description).

*Geochemical technical analysis of well samples during drilling campaigns.

College Education

-Engineer Degree / Structural Geology / University of Science & Technology HB-Algiers, Algeria **1991**

*Thesis Dissertation: "The Isser-Tizi Ghenif Depression: A Neogene's dextral Tanskabyle strike-slip".

Professional Training (1992 – 2014)

*Integrated Reservoirs Solutions (Core and Reservoir Modeling Workshops / SIGMA³ Houston, TX);

*Fractured Reservoirs Workshop / Prism Seismic/ Algeria);

*Certified Project Management Associate (International Project Management Association - AFITEP);

*Decision Making in Exploration Management / Sonatrach Training Center;

*Geological Interpretation with the Z-Map Software (Halliburton) /Algeria;

*Portfolio and Upstream Management (Sonatrach Training Center) /Algeria;

*Geological Interpretation using the Stratworks Software (Halliburton) & Geoframe 4 (Shlumberger)/Algeria;

*Communication and Teamwork (Sonatrach Training Center);

*Team Management / Robertson, North Wales, UK;

*Explorationist N°2 Training (Eni-Agip) / Prospect & Play Assessment (Ogci Course)

*Petrophysics Fundamentals and Advances (Oklahoma University/ Algeria) / Petroleum Geochemistry (Bhp / Algeria)

Miscellaneous

*Trilingual (Fluent English-French-Arabic) / Spanish Fundamentals / References available upon request
